

Dear colleagues,

In 2013 we presented ourselves for the first time at the Luxembourg Local Staff Committees elections.

During that campaign, we introduced you to our friend – the camel – who went on to become a mascot of sorts for the post-2004 generation at the European institutions:

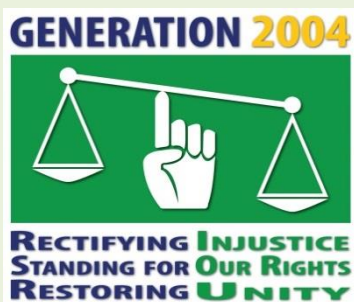

When we drafted our consolidated political platform (see link in the end of this message) in 2015 and further revisited the data for this 2016 campaign, we discovered how several short years in the European civil service had disfigured the camel into a very different creature. And in 2016 the costs for highest AD grades kept on rising!

**Diagnosis:** a severely disfigured and dysfunctional EU civil service

**First aid:** support the movement for a modern, efficient and fair EU staff policy

[Check out our 9 points for a modern, efficient and fair EU staff policy here](#)
