## Payment towards internet connection expenses

Dear colleagues,

We refer to the Secretary General's decision to allocate, from 1 April 2020, a lump sum of 40 EUR per month to contribute to the costs of internet connection.

Because the salaries are finalised a few weeks before being paid, the 40 EUR for the month of April will be paid with the salaries of May. This one-month lag will continue throughout the period in which these expenses are covered.
