**Note to the attention of Mr Giuseppe Scognamiglio, acting Director of PMO**

**Subject: Strengthening the family allowances calculating team in PMO**

Dear Mr. Scognamiglio,

Following the changes in the Belgian family allocations, we have received several indications that the team in PMO in charge of calculating family allowances is completely overloaded with work. Since January 2020 there are several hundred colleagues impacted by this change and, apparently, there is a very small team in PMO which has to handle the more than 1.000 files submitted for recalculation since then.

Generation 2004 would like to kindly request that your service investigates this matter and possibly reviews the allocation of resources for that particular unit in view to temporarily reinforce the family allowances calculation team. Otherwise, there is a risk that hundreds of colleagues will face at some point a significant salary deduction due to the recalculated amount of the due family allowances.

Thank you for considering our request,

Yours sincerely,
